ANNOUNCEMENT FOR 1871.

THE publishers are confident that the Directory for 1871 is more complete than any of its predecessors. It contains 33,500 names, an increase of five thousand over the list of 1870, showing a healthy and constant increase of population. It will be remembered that in 1869, the Directory contained 29,800 names, and in 1870 only 28,500; and yet the result of the United States census corroborated the correctness of the canvass. The census gave Buffalo a population of 117,000, and 28,500 multiplied by 4 $\frac{1}{2}$ gives very nearly the same result. On this basis, the present population of Buffalo is at least 140,000, and another year will show not less than 150,000.

Unusual care has been taken in the spelling of names; but as names, particularly of our German citizens, are spelled differently by those equally skilled in orthography, the list should be carefully examined before the search for a name is abandoned.

A Historical Sketch of Erie County, New Amsterdam, Buffalo Village and Buffalo City, comprising a list of the officers of each year from the organization of the first government to the present time, occupies twelve pages of the Directory. The author of this article promises to supplement it with another more detailed and more comprehensive, for another year.

The first Directory published in Buffalo was in the year 1828. In 1829, 1830, 1831, 1833, 1834, 1843, 1845 and 1846, no directories were printed. We mention this fact by special request, as there are frequent inquiries for back numbers.

The number of city advertisers is four hundred. The number of foreign advertisements is about the same as last year.

The new type used for the present issue, the paper, the arrangement of the matter, the neatness of style of advertisements, together with the finishing touch of the binder, give us the pleasure of offering to our patrons the best arranged and most complete City Directory published in the country.

BUFFALO, July 1, 1871.

THE HISTORY OF THE
CITY OF BOSTON

From its first settlement in 1630 to the present time
the city has grown from a small fishing village to one of the
largest and most important in the world. The early settlers
were Puritans who sought a place where they could practice
their religion in freedom. They built a city that was a model
of self-government and industry. The city has since become
a center of commerce and culture, and its history is a story
of growth and achievement.

BUFFALO CITY DIRECTORY:

BUFFALO.

ERIE COUNTY—NEW AMSTERDAM—BUFFALO VILLAGE— BUFFALO CITY.

A BRIEF sketch of the rise and progress of our city may be considered appropriate as part of the City Directory; and to give this properly, it is necessary to go back a few years in the early history of Erie county.

In the year 1772, the Provincial Assembly of New York, organized the county of Tryon, which embraced "all the territory westward of the county and city of Albany." In 1784, the Legislature of the State of New York changed the name of this territory from Tryon, to that of Montgomery.

At that period, emigration to the West was very slow; and but few people ventured beyond the valley of the Mohawk river, until 1789, when the county of Ontario, (embracing the whole of "Western New York," lying westward of what is now Syracuse,) was created. From that time the stream of population and civilization began to flow in this direction; and in March, 1802, the county of Genesee was created from Ontario; in 1808, Niagara was created from Genesee, and became the most westerly county of the State. In April, 1821, the county of Erie was created from Niagara. The act of the Legislature, creating the county of Erie, provided that "all that part of the county of Niagara lying north of Tonawanda creek, comprising the towns of Niagara, Lewiston, Porter, Wilson, Cambria, Hartland and Royalton, shall be and hereby is created into a separate county, and shall be called and known by the name of Niagara; and all the remaining part of the present county of Niagara shall hereafter be known and called by the name of Erie."

Buffalo being the county seat of old Niagara, it was necessary to locate a county seat for the now new county of Niagara, and Erastus Root, William Button and Jesse Hawley, were appointed commissioners for that purpose, and they fixed upon Lockport as the proper place; therefore the county of Erie dates from April, 1821. *Emm. see Hist. of Holland Purchase p. 553*

THE VILLAGE OF BUFFALO.

The ground on which the city of Buffalo now stands was surveyed and laid out by the Holland Land Company in 1801, and was named the village of New Amsterdam.

On the 2d of April, 1813, the Legislature passed an act "to incorporate the village of Buffalo, in the county of Niagara," which provided that "the freeholders and inhabitants qualified to vote for Members of Assembly, resident within the district of country known and distinguished on a map made by Joseph Ellicott, and on file in the clerk's office of the said county as the village lots and outer lots of the village of New Amsterdam, shall be a corporation by the name and style of the Trustees of the Village of Buffalo." Eli Hart, Zenas Barker, Ebenezer Walden, Oliver Forward and Cyrenius Chapin, were by the same act made the first Village Trustees, for the year commencing on the first Monday in May—the elections for village officers to be thereafter on the first Monday of May in each year. No organization was had under this act, and in April, 1815, the Legislature passed an act reviving the village charter, which contained this preamble, "that whereas the inhabitants of Buffalo were not informed of the passage of the act of incorporation until the time had elapsed for the first election," etc., and naming Messrs. Oliver Forward, Charles Townsend, Heman B. Potter, Ebenezer Walden and Jonas Harrison, as Trustees. Nothing appears to have been done under this act, for in April, 1816, another act of incorporation was passed, making the same persons Trustees, but adding the name of Samuel Wilkeson.

On the 6th day of May, the Trustees met at the house of Gains Kibbe, innkeeper; Messrs. Forward, Townsend, Harrison and Wilkeson, being present. They chose Jonathan E. Chaplin for clerk; Josiah Trowbridge, treasurer; Moses Baker, collector; and Reuben B. Heacock, John Haddock and Caleb Russell, fire wardens. The board had, among other powers, authority "to appoint not exceeding twenty-five firemen;" and on the 7th of March, 1817, they organized a fire company, and appointed the following *freeholders* as firemen: William Murray, Stephen K. Grovenor, Jonathan E. Chaplin, Dan Bristol, Gorham Chapin, John Fobes, John B. Hicks, Horatio L. Fobes, Joseph Lawton, Jonathan R. Brown, Azariah Fuller, Jr., Sylvanus Marvin, Abraham Larzelere, Barent J. Staats, Frederick A. Sprague, Sylvester Mathews, William B. Goodrich, Nathaniel B. Goodrich, William Darrington, Welcome Wood.

The village officers, afterwards chosen, were, in

These officials held only until the organization under the city charter on the 28th of May.

Here we must retrace our steps to 1813, on the 30th of December, in which year the village was set on fire by the British soldiery, (who crossed the Niagara river at Black Rock,) and entirely destroyed, with the exception of two dwellings, one of which was the house of Mrs. Margaret St. John, on Main street, opposite the present Tiff House—and the other at the junction of Erie, Pearl and West Swan streets; the remains of which last are still standing. *7 houses in 284 Ellievott a small 1 story building about 12 by 20 feet - Rich Black Smiths Shop was also saved*

At this time the population was 1,600; after the burning it fell off, and in 1814 it was only 1,000; but it rapidly (for those days) increased, and in 1820 it was 2,100; in 1825 it was 5,100; in 1830 it had reached 8,700.

Of course this growth had inspired a desire for some legislative action which should bring Buffalo more prominently into notice, and in 1832 it was incorporated by the Legislature as

THE CITY OF BUFFALO,

and was divided into five wards, each of which was empowered to elect two aldermen and one assessor. We give the names of those who have held the office of mayor and alderman, and also the names of the prominent city officers, designating the politics of the mayor.

By the provisions of the charter, the aldermen elected the mayor, and they together constituted the Common Council—the mayor being the presiding officer, and having a casting vote on all questions. The term of office for the mayor was one year.

The Common Council had power to appoint a clerk, city treasurer, city attorney, street commissioner, surveyor, police constables, clerk of markets, tax collectors, etc., etc. The salary of the mayor was fixed at not to exceed \$250 per year. The aldermen had no pay. Any person elected to an office and refusing to qualify, was subject to a fine of \$10, but no such fines appear to have been incurred. In 1837 the offices of superintendent of schools and police justice were created, and in 1839 each ward was authorized to elect one supervisor.

The population has increased as follows since 1830: By the census of 1835 it was 15,700; in 1840 it was 18,200; in 1845 it was 30,200; in 1850 it was 42,300; in 1855 it was 74,200; in 1860 it was 81,130; in 1865 it was 94,210; and in 1870 it was *one hundred and eighteen thousand!*

1832.

The first election under the city charter was held on the 26th day of May, 1832, when the following aldermen were elected:

1st Ward—Isaac S. Smith, Joseph W. Brown. 2d Ward—Henry Root, John G. Camp. 3d Ward—Ira A. Blossom, David M. Day. 4th Ward—Major A. Andrews, Henry White. 5th Ward—Ebenezer Walden, Thomas C. Love.

On the 28th of May the aldermen held their first meeting at the Court House, and elected EBENEZER JOHNSON, mayor. Dyre Tillinghast was appointed clerk; Henry R. Seymour, treasurer; George P. Barker, attorney; David M. Day, city printer; Isaac S. Smith, chief engineer of fire department; Edward Baldwin, street commissioner; Joseph Dean, clerk of markets; James J. Baldwin, city surveyor; William Jones and Nelson Adams, constables; the Mayor, Roswell W. Haskins, Lewis F. Allen and Joseph Clary, a board of health, with Dr. John B. Marshall, health physician.

This year the city boundaries were enlarged, and the mayor elected for two years; he ceased to be a member of the Common Council, which has since elected one of its own number as presiding officer, who in absence of the mayor discharges his duties. This year the position was bestowed upon Mr. Stephen W. Howell, (Rep.) The politics of the president show the political complexion of the board.

BUFFALO

STREET AND AVENUE DIRECTORY.

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The number on one corner has been given, so that a person wishing to find, say No. 495 MAIN STREET, on consulting the Street Directory, finds that the right hand corner of Main and Mohawk is No. 497, consequently the place he seeks is only a few doors above.

BUFFALO FEMALE ACADEMY.

This institution is situated in the most eligible and delightful part of the city, and commands a beautiful view of the city, the river, and the lake. The grounds, consisting of a whole block, fronting on Delaware avenue, and extending to a charming private park in the rear, are tastefully laid out and ornamented with trees and shrubbery.

The buildings, "The Cottage" and "Goodell Hall," combine all that is desirable in arrangement and convenience. The former is built of stone, and is exclusively occupied

by the family of the principal, the young ladies entrusted to his care as boarders, and the teachers of the institution boarding with the principal. The latter, "Goodell Hall," has been expressly erected for academic instruction, and for spaciousness and convenience, may well challenge comparison with any similar establishment in the country. It has abundant accommodations for four hundred pupils. Rev. A. T. Chester, Principal.

Board of Trustees—Hon. N. K. Hall, President; Rev. A. T. Chester, D. D., Secretary and Treasurer; Sam'l F. Pratt, Dennis Bowen, Noah H. Gardner, Henry W. Rogers, Bronson C. Ramsey, Joseph Dart, Sherman S. Jewett, John R. Lee, Thomas Farnham, John B. Skinner, Oliver G. Steele, William H. Greene, Nelson Holland.

POSTAL RULES.

Many errors occur by persons not observing the following rules in depositing letters, papers or other mail matter in the office for mailing:

All Drop Letters must be prepaid by postage stamps.

Prepayment by stamps required on all transient printed matter, foreign and domestic.

By inserting the County in which the office is located, upon all the letters, many errors in superscription might be detected, and mistakes in mailing be avoided.

The following class of letters are not advertised:

Drop letters, unless a three cent postage stamp is affixed.

Letters bearing request to be returned to writers if unclaimed.

Box Letters.

Letters directed and sent to hotels, and thence returned to the Post Office as unclaimed, being for strangers.

Letters returned from the Dead Letter Office to writers.

Circulars, free packets, containing printed documents, speeches, and other printed matter.

All others remaining in the office are advertised on Saturday of each week. If not claimed in one month thereafter, they are then forwarded to Washington.

Buffalo Society of Natural Sciences.—Organized Dec. 5, 1861; incorporated Jan. 28, 1863. The object of this Society is the promotion and study of the Natural Sciences, through the formation of a Museum and Library, the procurement of Lectures, and the use of such other means as shall be found effective. Its primary duties and objects are the collection and preservation of specimens of every vegetable and of every animated being, other than man and the domestic animals, (indigenous to Buffalo and its vicinity) and of every rock, fossil, and mineral, of the surrounding country; to classify, arrange and make catalogues of them; to send catalogues of them to its correspondents, and to all lovers of natural science who may desire

them; to observe, record and diffuse a knowledge of all facts illustrative of the nature and habits of such animals and plants; and, so far as it can, to supply the desiderata of its friends and correspondents. By a reciprocation of the services it desires to render others, as well as by such purchases as it may be able to make, and the gifts of our liberal citizens, its collection will soon represent far more than the local natural history; and it hopes and expects that its rooms will be attractive and useful to naturalists, as well as gratifying to the instructed admirers of God's wonderful works. Its rooms are located in the Young Men's Association Building.

The Buffalo Historical Society.—The above Society was organized April 15, 1863, and its first election of officers was held May 20, 1863. Its general design is to discover, procure and preserve whatever may relate to the history of Western New York, and the city of Buffalo in particular. It will likewise aim to gather statistics of the commerce, manufactures and business of the Lake region, and those portions of the West that are intimately connected with the interests of Buffalo. For that purpose it solicits from all persons willing to contribute to the object, donations of books, pamphlets, maps, charts, manuscripts, correspondence, paintings, statuary, files of newspapers, etc., which may have historic importance, or illustrate, in any way, the facts and incidents attendant upon the early settlement and subsequent progress of Western New York and the adjacent regions. Those who are in possession of any of the above described objects of collection desired by the Society, and may not feel willing to donate or permanently part with them, are respectfully invited to deposit the same among the archives of this Society, to be reclaimed at their pleasure. No property thus deposited will be permitted to be taken from the rooms of the Society, unless with the written consent of the owner or depositor. A fire-proof depository has been secured for the use of the Society. An Annual Oration will be delivered before the Society, on the second Tuesday of January in each year, and Addresses from time to time during the year, of which public notice will be given. The monthly meetings of the Society will be held on the first Tuesday of every month.

Mechanics' Institute.—The Mechanics' Institute of the city of Buffalo was organized on the twenty-first of February, 1865, and on the twentieth of March, 1869, it was formally incorporated by an act of the Legislature of the State.

The particular business of the society, as set forth in the certificate of incorporation, "shall be the mental improvement and cultivation of its members, the general promotion and advancement of mechanical interests, and the establishment of more intimate relations between employer and employee, in the city of Buffalo."

In the latter part of July, 1869, the new administration determined upon holding an International Industrial Exhibition in the Skating Rink on Pearl street. Large wooden buildings were constructed on the lot adjoining the Rink, and on the 9th of October the Exhibition was inaugurated, and continued open till October 30, during which time it was visited by over 150,000 persons. The number of articles exhibited was 1,133, representing the skill and industry of a large number of the Northern States and the Canadas, and making altogether a display in no way inferior to the annual exhibition of the famous American Institute. The Institute has since determined, with proper encouragement, upon the erection of a mammoth fire-proof building on the Bustl Terrace, for the purpose of holding annual international exhibitions, and a perpetual bazar, for the display and sale of goods from all sections of the country and the Canadas.

Officers—The officers of the Institute the present year are: Myron E. Brown, President; Lewis M. Evans, 1st Vice-President; Henry Smith, 2d Vice-President; J. Henry

LEGAL HOLIDAYS.

We publish by request the entire act establishing Legal Holidays. It will be seen from this that when either of the holidays named occurs on a week day, the law treats them as Sundays for all purposes connected with the payment, acceptance, or protest of bills of exchange and promissory notes. All notes maturing on such days, therefore, must be paid the day before, or, if that is Sunday, the Saturday previous. But when these holidays fall on Sunday, then the next day is also a legal holiday; but the law interposes in favor of the debtors, and allows payment of notes, etc., made after March 16, 1865, to be deferred to the Tuesday succeeding.

The following is the bill passed March 18, 1865, chap. 1846:

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The act, entitled "An act to designate the holidays to be observed in the acceptance and payment of bills of exchange and promissory notes," passed April 4, 1849, is hereby amended so as to read as follows:

§ 1. The following days, viz.: Any day appointed or recommended by the Governor of this State or the President of the United States, as a day of fast or thanksgiving, the fourth day of July, the twenty-fifth day of December, commonly called Christmas day, the first day of January, commonly called New Year's day, and the twenty-second day of February, and when the said fourth day of July, twenty-fifth day of December, first day of January, or twenty-second day of February shall occur on Sunday, then the ensuing day thereto, shall, for all purposes whatsoever, as regards the presenting for payment or acceptance, and of the protesting and giving notice of the dishonor of bills of exchange, bank checks and promissory notes, made after the passage of this act, be treated and considered as the first day of the week, commonly called Sunday. And any bill of exchange, bank check or promissory note, made after the passage of this act, which but for this act would fall due and payable on any of the days herein mentioned, shall, when said day falls on Sunday, become payable on the Tuesday next succeeding such days.

§ 2. This act shall take effect on the first day of August next.

CANCELLATION.—In all cases where an adhesive stamp is used for denoting the stamp duty upon an instrument, the person using or affixing the same must write or imprint thereupon, *in ink*, the initials of his name, and the date (the year, month and day) on which the same is attached or used. Each stamp should be separately canceled. When stamps are printed upon checks, etc., so that in filling up the instrument, the face of the stamp is and must necessarily be written across, no other cancellation will be required.

All cancellation must be distinct and legible, and except in the case of proprietary stamps from private dies, no method of cancellation which differs from that above described can be recognized as legal and sufficient.

PENALTIES.—A penalty of fifty dollars is imposed upon every person who makes, signs or issues, or who causes to be made, signed or issued, any paper of any kind or description whatever, or who accepts, negotiates or pays, or causes to be accepted, negotiated or paid, any bill of exchange, draft, or order, or promissory note, for the payment of money, without the same being duly stamped, or having thereupon an adhesive stamp for denoting the tax chargeable thereon, canceled in the manner required by law, with intent to evade the provisions of the revenue act.

A penalty of two hundred dollars is imposed upon every person who pays, negotiates or offers in payment, or receives or takes in payment, any bill of exchange or order for the payment of any sum of money, drawn or purporting to be drawn in a foreign country, but payable in the United States, until the proper stamp has been affixed thereto.

A penalty of fifty dollars is imposed upon every person who fraudulently makes use of an adhesive stamp to denote the duty required by the revenue act, without effectually canceling and obliterating the same, in the manner required by law.

Attention is particularly called to the following extract from section 155, of the act

of June 30, 1864, as amended by the act of July 13, 1866:

"If any person shall willfully remove, or cause to be removed, alter or cause to be altered, the cancelling or defacing marks on any adhesive stamp, with intent to use the same, or to cause the use of the same, after it shall have been once used, or shall knowingly or willfully sell or buy such washed or restored stamps, or offer the same for sale, or give or expose the same to any person for use, or knowingly use the same or prepare the same with intent for the further use thereof, or if any person shall knowingly and without lawful excuse (the proof whereof shall lie on the person accused) have in his possession any washed, restored, or altered stamps, which have been removed from any vellum, parchment, paper, instrument, or writing, then, and in every such case, every person so offending, and every person knowingly and willfully aiding, abetting or assisting in committing any such offense as aforesaid, shall, on conviction thereof, * * * be punished by a fine not exceeding one thousand dollars, or by imprisonment and confinement to hard labor not exceeding five years, or both, at the discretion of the court."

Revenue stamps may be used indiscriminately upon any of the matters or things enumerated, except proprietary and playing card stamps, for which a special use has been provided.

Postage stamps cannot be used in payment of the duty chargeable on instruments.

For every additional pound or fractional part thereof..... 1

13 Cigar lights and playing cards, in the hands of manufacturers and dealers, should be stamped according to the rates fixed by the law now in force. The fact that they were manufactured prior to August 1, 1866, and are stamped in accordance with the law in force at the time of manufacture, does not relieve them from payment of the increased rates by affixing additional stamps.

No stamp tax is imposed upon any uncompounded medicinal drug or chemicals, nor upon any medicine compounded according to the United States or other national pharmacopœia, or of which the full and proper formula is published in any of the dispensaries now or hitherto in common use among physicians or apothecaries, or in any pharmaceutical journal now issued by any incorporated college or pharmacy, unless sold or offered for sale or advertised under some other name, form, or guise than that under which they are severally denominated and laid down in such pharmacopœias, dispensaries, or journals.

No stamp tax is imposed upon medicines sold to or for the use of any person, which may be mixed and compounded for said person according to the written recipe or prescription of a physician or surgeon. But all medicinal articles, whether simple or compounded by any rule, authority, or formula, published or unpublished, which are put up in a style or manner similar to that of patent or proprietary medicines in general, or advertised in newspapers or by public handbills, for popular sale and use, as having any special proprietary claim to merit, or to any peculiar advantage in mode of preparation, quality, use or effect, whether such claim be real or pretended, are liable to the tax.

Stamps appropriated to denote the duty charged upon articles named in the schedule, cannot be used for any other purpose; nor can stamps appropriated to denote the duty upon instruments be used in payment of the duties upon articles enumerated in this schedule.

When proprietary stamps from a private die are used, if they are so affixed to the boxes, bottles, or packages that, in opening the same, or in using the contents thereof, they shall and must be unavoidably and effectually destroyed, no cancellation is necessary; but if they cannot be so affixed, they should be canceled in the ordinary manner by writing or imprinting thereon the initials and date. When general proprietary stamps are used, they must be canceled by writing or imprinting thereon the date and the initials of the party using or affixing them.

Any person who offers or exposes for sale any of the articles named in the schedule,

or in any of the amendments thereto, whether they are imported or of foreign or domestic manufacture, is to be deemed the manufacturer thereof, and subject to all the duties, liabilities, and penalties imposed by law in regard to the sale of domestic articles without the use of the proper stamp or stamps for denoting the tax paid thereon. The stamp tax upon such articles imported or of foreign manufacture is in addition to the import duties; but when such imported articles, except playing cards, lucifer or friction matches, cigar lights, and wax tapers, are sold in the original or unbroken packages in which the bottles or enclosures were packed by the manufacturer, no penalty is incurred for want of the proper stamp. When the packages are opened stamps should be affixed.

Violations of these stamp duties will be punished as the law directs.

DUMPING WAGON.

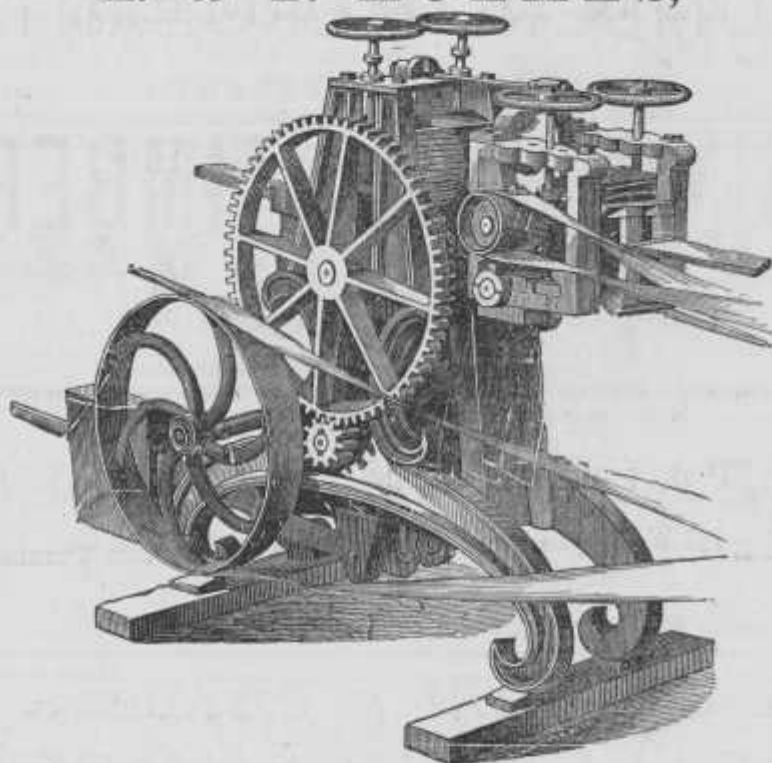

A NEW AND USEFUL INVENTION.—Messrs. Holmes have patented a Dumping Wagon for general purposes, which exceeds even the excellent one which has been for some time before the public, and also invented by them. It dumps from the tail board, which is peculiarly arranged so that it is securely closed until the load is desired to be got rid of, which can be done with very little effort, as the load is so evenly balanced; and the wagon can be turned in a marvelously narrow road. Besides being light it is very strong. It dumps from the end, and is peculiarly fitted for coal delivery or for carrying bricks. The body is upon substantial rubber springs, and therefore peculiarly adapted for carrying coal and bricks. The latter can be dumped without violence or breakage in a solid mass in a tenth part of the time consumed in the usual method of unloading. Messrs. Holmes have just perfected this useful invention, and will put it before the public at once. They are also making a patent farm wagon of great practical utility, and economical. A wordy description of the Dumper would convey very little idea of its simplicity and completeness. But we expect to see it generally in use very shortly.—*Buffalo Morning Express.*

C. KURTZMAN,
 MODERN IMPROVED OVERSTRUNG
 PIANO FORTE MANUFACTURER

BATAVIA STREET, CORNER OF ELM.

All our instruments are built of the best and most thoroughly seasoned materials. Their tone is deep, round, full and mellow, the touch elastic. We were

AWARDED THE FIRST PREMIUM

at the New York State Fair, in 1862; also the First Premium at the International Industrial Exhibition, Buffalo, in October, 1869; and we claim the right of saying that our make of Pianos is superior to any manufactured in this country.

EXTRACT FROM THE "ROCHESTER UNION."

MR. G. W. ELLIS.—Dear Sir:—I take much pleasure in saying that the Piano you furnished for Grau's Opera Troupe in this city, manufactured by Messrs. Kurtzman & Hinze, is a very fine instrument—indeed as good as I have ever used.

Your Truly,

E. MUSIO,

Musical Director of the Italian Opera.

Every kind of work in our line, as Repairing, Tuning, &c., of Piano Fortes, is done cheap and in the most durable manner.

DE VINE BROTHERS,

Sole Manufacturers of Improved

Square Grand Piano Fortes

WITH IVORY AGRAFFE.

Patented October 13, 1868.

We warrant our Pianos to be superior in tone, touch and finish to all others, and will sell for cash at very low prices.

Old Pianos taken in exchange. New and second-hand Pianos rented with privilege of purchase.

No. 401 Niagara Street, corner of Maryland.

EVERY PIANO WARRANTED FOR SEVEN YEARS.

PIANOS TUNED AND REPAIRED BY SKILLFUL WORKMEN.

In returning thanks to the numerous persons who during the past eleven years have so generously aided us in establishing a reputation for manufacturing in Buffalo, Pianos of equal merit with those made elsewhere, we call the attention of intending purchasers of a really good Piano, to a few of the leading points which are indispensable in first-class Instruments. *First*—The *Tone* should be full, clear and sonorous. *Second*—The *Touch* should be light and the *Action* prompt to the slightest motion of the fingers. *Third*—The dampers should act instantly on the strings when the fingers are removed from the keys. *These effects* are produced mainly by the peculiar construction of each part: *First*, by having a case large and strong enough to admit of a proper length and thickness of steel wire being used in each octave; *second*, in having the right kind of sounding board, braced and strengthened in a scientific manner; *third*, the tuning pins must be firmly set in a block of three or four layers of hard maple wood of the full length of the Piano; *fourth*, the iron frame must be of immense strength to resist the strain and be well secured by fifty or sixty screws to the pin block, end blocks, and front bar; *fifth*, the action and key board must be made in the most scrupulous manner and well bushed with the finest cloth; *sixth*, the hammers being the first part to give out, require capping with buckskin of the most delicate texture; *seventh*, the dampers in order to produce a proper effect must have double heads; *eighth*, the bottom, on which the action, key board, &c., so much depend, must be perfectly solid throughout; *ninth*, the case, in every part, must be veneered on the best white ash; *tenth*, material of all kinds must be of the choicest description and be put together by the very best workmen, without regard to time or cost.

All our Instruments are made as described, and it is almost unnecessary to say that no Low Priced or so-called cheap Instruments embrace these, or any other points of excellence, being in the main made by boys and apprentices in the quickest time possible and of the cheapest materials. Their sale is principally confined to persons of slender means and those not posted in such matters, and are usually effected by the brazen effrontery of the vendors or makers, each claiming to have received a prize over all competitors, when in fact, there never has been in ninety-nine cases out of a hundred an honest decision, or even any examination made of the practical construction of the instruments exhibited. This is so well known privately to the makers that it is a source of continual amusement to hear their anecdotes about how they managed to get the first prize.

THE HARDEST, TOUGHEST AND MOST DURABLE TYPE IN THE WORLD.

By the completion of our new and powerful machines, we are now enabled to force a metal into type, (heretofore impossible) that will exceed in durability any thing in the shape of Type now made in other places.

In case you need new Type for News or Book work, we would advise you to give us your orders and you will be convinced, what we affirm, to be a fact.

If you will let us know when you intend to renew your paper with type, and give us the size and quantity of type you use, we will hold ourselves ready to meet your wants with promptness.

You will find also at this Foundry all other articles necessary for the Printing Business.

We are agents for all the Printing Press Makers in the country.

Type from other foundries furnished.

ELECTROTYPING.

Printers will find it to their advantage to send their forms to be Electrotyped when large numbers are to be printed from them, thereby saving their type from wear. Also Books and Pamphlets Electrotyped as low as Stereotyping. Cuts, Borders and in fact anything that needs Electrotyping.

GOLD'S PATENT STEAM FURNACE

For which we are agents, and which we unhesitatingly pronounce the best Heating and Ventilating Apparatus for Dwellings, Stores, Churches and Public Buildings in this country. The following is one of the many testimonials in our possession:

LANCASTER, N. Y., April 2, 1870.

Messrs. IRLBACKER & DAVIS: It gives me pleasure to add my testimony in favor of your system of affording pure artificially warmed air to private dwellings. I have used parlor furnaces for three years, and stoves previous to that time. My wife, during the winter, whenever fire was lit in either stoves or furnaces, was subject to headache. Hearing, last fall, of your system, I determined to try it, and am happy to say its entire freedom from gas and dust, (the great evil of other modes,) and its pleasant, summer-like heat, has been the means of entirely relieving her of her trouble. Although economy of fuel ought not to be considered where health is concerned, still, for the information of those to whom it might be an object, I can state that twelve tons of coal have heated my entire house, and furnished all the fuel for range in kitchen last winter. I cheerfully recommend your Steam Heating Apparatus in all cases where health and comfort are of more value than the extra first cost of erection.

Yours, etc.,

WM. H. GRIMES.

FRANK & CO'S PONEY PLANNER AND MATCHER

This machine is designed to meet the wants of a large number of those who are in want of a Planer and Matcher, who either have not the means or sufficient amount of planing to afford a large and expensive machine. It is small, strong, compact and durable, occupying a space about 3½ by 6 feet. It has four 4½ inch feed rollers, connected by expansion gears. Both the upper feed rollers and cutter head are raised at the same time by the use of a single crank. The under cutter head is raised and lowered by a screw, to give a light or heavy cut as may be desired. The pressure bar over the lower cutter head is raised by the use of a screw at each end, both being operated at the same time by level gears connecting with a horizontal shaft and crank. It will plane both sides, tongue and groove or joint both sides at the same time from 2¼ to 12 inches wide, and do as much work as many machines costing double the price.

PRICES.—To plane and match 12 inch wide, \$375.00; to plane both sides and match 12 inch wide, \$450.00; extra cutters per pair, \$4.00.

THE NIAGARA BRICK PRESS.

THE MOST SIMPLE, POWERFUL, DURABLE, ECONOMICAL AND BEST
BRICK MACHINE IN EXISTENCE.

It makes both Front and Common Brick, superior to any in the market, and at much less cost.

It can be worked to good advantage every day in the year—through wet and dry, and through warm and cold weather.

It takes the clay directly from the Separating Pulverizer, presses it into the form of brick and delivers it on off-bearing boards and cart ready to be delivered at the kiln *without* handling.

It being a "Double Ender," the pressing power is evenly distributed and applied to the best possible advantage—doing double the work of any other machine with the same amount of power.

Each and every part of the machine most liable to wear is so constructed that it can be "taken up," or replaced at very small expense of time and labor.

Its construction is such that the pressure can be regulated at pleasure, while the machine is in motion—varying the same from ten to sixty tons and upwards.

It is not owned or managed by speculators, but is in the hands of the inventors and patentees.

THE NIAGARA BRICK.

THE MOST BEAUTIFUL, DURABLE, PERFECT, AND SYMMETRICAL BRICK
ARE MADE BY THE NIAGARA BRICK PRESS.

They are made of pure clay as it comes from the bank, pulverized and tempered without mixing with sand or water.

They require no hacking or drying, but are conveyed directly from the machine to the kiln and are handled *only* when being set for burning.

They can be burned without checking, cracking or warping, in about the same time and at about the same cost of fuel it takes to burn the ordinary mud brick.

They being made of damp or half dried clay, possess *all* of the good and *none* of the objectionable qualities of the *mud* or *dry* clay brick.

They are perfect in form, true and square, with well defined edges and angles; and ends and sides highly polished.

They are of greater specific gravity than any other brick made by hand or machine.

They will withstand a greater pressure without crushing or breaking than any other brick made.

They are not injuriously affected by exposure to the elements, but are as durable as the best brick made by *any* process whatever.

They are grainless and cut to any form without material waste.

They are of brighter color than *mud* brick, do not fade or discolor in the wall with dust and smoke, but retain their bright color.

Call and examine samples and machines, or send for descriptive pamphlet and prices to 346 Main Street, corner of Niagara, Buffalo, N. Y.

NOTICE TO THE TRADE
CONCERNING
JOHNSON'S
BUFF TINTED COPYING PAPER
CHEAPEST AND BEST PAPER.

Circulars have been issued to the Stationery Trade, advertising our numerous customers as "unprincipled Jobbers and dealers," and threatening them with prosecution, which are doubtless intended to intimidate them against purchasing or using

JOHNSON'S BUFF TINTED COPYING PAPER

and have gone so far as to state that in some instances our paper has been represented to be another article, made by other parties.

We have bestowed years of labor in bringing our paper to its present perfection, and so far from having any desire to confound it with any other, have labored assiduously to preserve its identity with us.

It is our intention not to permit the trade to be intimidated in the purchase of our Paper. We are able to supply the market with a superior article, at less price than any other, and propose to do so.

If you buy any Copying paper or Books made by us, we shall protect you against any loss by reason of prosecution or infringement upon the pretended rights of any manufacturer.

Every one of our Copying Books has pasted on the front inside cover a label, reading "JOHNSON'S BUFF TINTED COPYING PAPER." Then follow a few lines setting forth the advantages of our Paper, with directions for Copying, &c.

All our Books are done up in packages of one-quarter dozen each, with a label on the outside of package which reads, "Johnson's Buff Tinted Copying Paper, Copying Books," size, number and thickness.

Our Buff Tinted Copying Paper is done up in packages of two Reams each, with label on the outside of each package as follows: "Johnson's Buff Tinted Copying Paper." This label also contains a list of all the sizes of Paper we manufacture, with other instructions in regard to using this Paper, &c.

We have been somewhat particular in describing the manner in which our Paper and Copying Books are sent out to the trade, so that they may more readily identify them, and understand that we do not wish to confound them with any inferior article.

WARREN, JOHNSON & CO., MANUFACTURERS,
BUFFALO, N. Y.

REVISED AND REDUCED PRICE LIST, JULY 1st, 1871.

JOHNSON'S BUFF TINTED COPYING PAPER

IS NOW WIDELY KNOWN,

And is equal to anything yet offered for the purpose, while it is as strong, and resembles in appearance the finest *Bank Note Paper*. Books made of it are preferable to the French White;

BECAUSE

1st. The Paper Shows a Clearer Copy.

3d. The Paper is much Stronger.

2d. The Ink will not Spread on it.

4th. It can be Written upon with Pen and Ink.

HOLLY MANUFACTURING CO.

LOCKPORT, N. Y.

MANUFACTURERS OF THE

HOLLY WATER WORKS

AND FIRE HYDRANTS, FOR CITIES AND VILLAGES.

Also, Hand and Power Pumps, including Piston, Elliptical, Rotary and Centrifugal, in great variety, for Air, Gas, Water, Pulp, Acids, Alkalies, and Liquors of all kinds.

THE HOLLY SYSTEM OF WATER SUPPLY AND FIRE PROTECTION, supplies an urgent and well-nigh universal demand of communities. Since Mr. Holly invented and constructed the first experimental set of Works, and put them in operation in Lockport, N. Y., the System has been successively introduced into the following places, viz.: Auburn, N. Y.; Gouverneur, N. Y.; Minneapolis, Minn.; Vergennes, Vt.; Ogdensburg, N. Y.; Binghamton, N. Y.; Peoria, Ill.; Batavia, N. Y.; Kalamazoo, Mich.; Canton, O.; Marquette, Mich.; Dayton, O.; Coshocton, Ind.; Covington, Ky.; Columbus, O.; Indianapolis, Ind.; Jackson, Mich.; Norwalk, O., and Buffalo, N. Y., and is under contract to be completed at an early day for Saratoga Springs, Syracuse and Schenectady, N. Y.; Evansville and La Porte, Ind.; Cumberland, Md.; Columbus, Ind.; Portsmouth and Fronton, O. A large number of other Cities and Villages are in negotiation with the Holly Company for these Improved Water Works. Reference is made to any or all of the above named places. Descriptive Pamphlets will be sent on application.

ADVANTAGES OF THE HOLLY SYSTEM.

Great strength and power of the machinery. Saving of valuable time in applying water for extinguishing fires, in sufficient quantity and unceasing flow. Each Hydrant is an equivalent for a steam fire engine. The severity of winter weather does not interfere with their efficient operation. Comparative economy in cost of construction, in that they dispense with reservoirs or stand-pipes. Dispenses entirely with the use of steam and hand fire engines. Reduces rates of insurance, 25 to 50 per cent. Affords abundant supply of water for domestic use, as well as for fire protection.

It was clearly demonstrated last night that the distance did not make any difference with the force and volume. Two splendid streams were put upon the flames, which soon died down. IT WAS REMARKED LAST NIGHT, THAT BINGHAMTON WOULD NOT SELL HER RIGHT TO THESE WORKS FOR A MILLION DOLLARS, and she would not.—*Binghamton Democrat*, March, 1869.

CITY OF OGDENSBURG, N.Y., Mayor's OFFICE, January 28, 1869.

WE SHALL HAVE NO USE FOR OUR STEAM FIRE ENGINES.

Yours truly, W. C. BROWN, Mayor.

JOHN B. JERVIS, Esq., whose engineering skill in the construction of the Croton Water Works in New York, and the Cochituate in Boston, have given him a world-wide reputation, is now a resident of the village of Rome, N. Y., and the question of Water Works being under consideration, he was appointed one of a committee to examine and report upon the Holly Works of Auburn. From his report we make the following extracts:

The peculiarity of these works is, that the supply of water is direct from the pump without a reservoir. Those in charge of the Works, speak well of the success of their pump, and I could see NO FAULT IN ITS CURRENT ACTION. THERE CAN BE NO DOUBT THE AUBURN PLAN WORKS EFFICIENTLY. The testimony of all that I conversed with was, that the PLAN HAD WORKED SATISFACTORILY.

The water is thrown by the pumps worked in the pump house, and is just as efficient to a stream, according to its power, as a steam fire engine, and MORE READILY APPLIED.

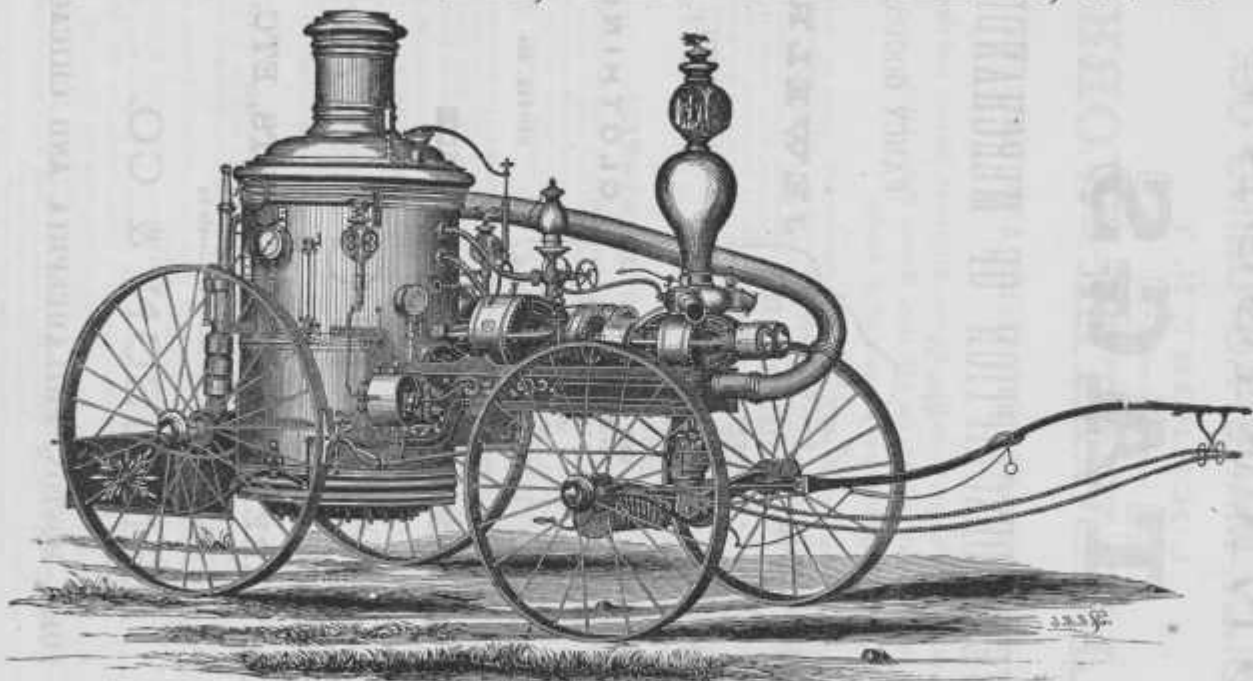

Respectfully your obedient servant, JOHN B. JERVIS.

From the report of Thomas C. Keefer, Esq., (under whose skillful direction the Reservoir Water Works of Montreal, Toronto and Hamilton were constructed,) to the City of Ottawa, Ontario, May 13th, 1869:

The "Holly System" is exclusively a pumping one, and CONSPICUOUS FOR ITS ECONOMY. "For the speedy extinction of fires, NOTHING CAN EQUAL THE HIGH PRESSURE HYDRANTS, from which as soon as a hose can be attached, a ceaseless stream is poured on the flames, confining them to the place of origin. The fire is extinguished before the proofs of the intended incendiarism are destroyed, and the prepared and saturated combustibles are thus revealed."

"Mr. Holly, by his ingenious and economical arrangement, has done invaluable service to many towns, and by his rendering all kinds of fire engines unnecessary, WILL DOUBTLESS CREATE A REVOLUTION IN THE EXISTING SYSTEM OF WATER WORKS, THROUGHOUT THE UNITED STATES."

BUFFALO CITY DIRECTORY

FOR THE YEAR 1871.

ABBREVIATIONS.

In the pages following, *h.* stands for house; *b.* for boards; *w.* for with; *arc.* for arcade; *cor.* for corner; *opp.* for opposite; *wid.* for widow; *lab.* for laborer; *ab.* for above; *bel.* for below; *bet.* for between; *n.* for near; *r.* for rear; *carp.* for carpenter; *N. E. W.* for north, south, east and west; *N. Div.* for North Division; *S. Div.* for South Division; *Exch.* for Exchange; *Wash.* for Washington; *Com'l* for Commercial; and the abbreviations of the States for streets of similar names. The word *street* is implied.

It will be noticed that the names and residences of all members of a firm are in a smaller type, directly under the name of the firm. This, it will be understood, does not interfere with the regular insertion of the same names in their alphabetical order.

THE HOWE SEWING MACHINES.

Sold only at 353 Main Street. Beware of parties offering machines called "Medallion Head Machines."
 C. B. BARKER, Manager.

JEROME PIERCE,

MANUFACTURER OF

Shingle, Heading, Stave and Saw Mill MACHINERY,

Patented April 17th, 1866.

MY AUTOMATIC TWO-BLOCK MILL.

THIS is a new machine which I unhesitatingly present to the public as the *best Two Block Mill* in use. It is constructed entirely of iron and steel, and in a simple and durable manner. The advantages of this machine are: the **LARGE QUANTITY OF WORK** turned out, its **QUALITY**, and the **SAVING OF LABOR**—one man tending it easily. The machine is so constructed that when one block is being sawed the other is receding, **ELEVATED ABOVE THE SAW**, which is done by the tracks upon which the carriage runs being raised and lowered by a simple arrangement not liable to get out of order.

The advantages are, that the saw will run **LONGER WITHOUT REPIILING**, as the saw comes in contact with the block only when cutting. The block not coming in contact when receding, the upper side of the saw is dulled no faster than the lower, a desideratum not accomplished in any other machine. Any one will readily see that the saw will run much longer before refiling, and also avoid making clipped shingles as in other machines, where one side of the saw becomes duller than the other. It has the advantage of other two block mills in using 49 inch saws instead of 36, and the carriage consequently requiring less distance to travel to cut the same width shingle.

It has the self-acting tilting table operated by the movement of the carriage, and by raising the paul you make as many shingles as you please one way, if desired.

Awarded the Silver Medal at the Ohio State Fair, Toledo, 1868. Awarded the Silver Medal at the Michigan State Fair, Detroit, 1868. Awarded the Highest Premium at International Industrial Exhibition, Buffalo, N.Y., 1869.

I also manufacture Automatic One Block Shingle Machines, Hand Feed Single Block Shingle Machines, Wheel Jointers, Saw Jointers, Bolting Machines, Drag Saws, Wood Splitters, Wood Saw Tables, and Saw Mill Machinery, with the latest improvements.

STEINWAY & SONS,

MANUFACTURERS OF

GRAND, SQUARE AND UPRIGHT

PIANOFORTES

Beg to Announce a

General Reduction

IN THEIR PRICES.

in accordance with the decline in the premium on gold, and consequent decreased cost of imported articles used in the manufacture of Pianofortes. In addition to their established styles of Pianofortes, STEINWAY & SONS, in order to meet a long-felt and frequently-expressed want by persons of moderate means, teachers, schools, etc., have perfected arrangements for the manufacture of an entirely new style of instrument, termed

THE "SCHOOL" PIANO,

a thoroughly complete instrument of seven octaves, precisely the same in size, scale, interior mechanism and workmanship, as their highest priced 7-octave Pianos, the only difference being that this new style of instrument is constructed in a perfectly plain yet exceedingly neat exterior case. These new instruments will be supplied to those who desire to possess a thoroughly first-class "Steinway Piano," yet are limited in means, AT EXCEEDINGLY MODERATE PRICES.

STEINWAY & SONS also desire to call special attention to their new

PATENT UPRIGHT PIANOS

with double Iron Frame, Patent Resonator, Tubular Frame Action, and new Soft Pedal, which are matchless in volume and quality of tone, and surpassing facility of action, whilst standing longer in tune and being more impervious to atmospheric influences than any other Piano at present manufactured.

Price Lists and Illustrated Catalogues mailed free on application.

EVERY PIANO IS WARRANTED FOR FIVE YEARS.

NOTICE TO THE TRADE

CONCERNING

JOHNSON'S

BUFF TINTED COPYING PAPER

CHEAPEST AND BEST PAPER.

Circulars have been issued to the Stationery Trade, advertising our numerous customers as "unprincipled Jobbers and dealers," and threatening them with prosecution, which are doubtless intended to intimidate them against purchasing or using

JOHNSON'S BUFF TINTED COPYING PAPER

and have gone so far as to state that in some instances our paper has been represented to be another article, made by other parties.

We have bestowed years of labor in bringing our paper to its present perfection, and so far from having any desire to confound it with any other, have labored assiduously to preserve its identity with us.

It is our intention not to permit the trade to be intimidated in the purchase of our Paper. We are able to supply the market with a superior article, at less price than any other, and propose to do so.

If you buy any Copying paper or Books made by us, we shall protect you against any loss by reason of prosecution or infringement upon the pretended rights of any manufacturer.

Every one of our Copying Books has pasted on the front inside cover a label, reading "JOHNSON'S BUFF TINTED COPYING PAPER." Then follow a few lines setting forth the advantages of our Paper, with directions for Copying, &c.

All our Books are done up in packages of one-quarter dozen each, with a label on the outside of package which reads, "Johnson's Buff Tinted Copying Paper, Copying Books," size, number and thickness.

Our Buff Tinted Copying Paper is done up in packages of two Reams each, with label on the outside of each package as follows: "Johnson's Buff Tinted Copying Paper." This label also contains a list of all the sizes of Paper we manufacture, with other instructions in regard to using this Paper, &c.

We have been somewhat particular in describing the manner in which our Paper and Copying Books are sent out to the trade, so that they may more readily identify them, and understand that we do not wish to confound them with any inferior article.
